

Landscape Committee Report

September 26, 2017

- * The new system of directing Owner requests directly to the Chair of the Landscape Committee seems to be working well. Several of the requests involve replacing plant material which must be done in the spring, but most other requests that fall within the scope of the Committee we are working on now, several have been completed.
- * Please mention to the Owners at the meeting to get in touch with Cheri Hall by e-mail with any requests or recommendations.
- * Communication between the Committee and the folks at Level Green continues to improve and we are seeing a rapid response to our requests.
- * The three Davey Tree bids that were BOD approved, #4009, #3873 and #4504 were executed on Sept 13 & 14. The work appears to have been satisfactorily completed.
- * The Committee is working with MMG and the city to comply with the requirements of the Davey Tree work, and replacement trees will be planted in the spring of 2018.
- * The Committee is working on addressing the erosion issues that we all noticed this summer and looking into the possibility of an off-leash, fenced-in dog area. More to come on those.

Respectfully submitted,
Cheri Hall,
Chair, Shearwater Condos Landscape Committee
