

I have contacted Anchor Aquatics and hope to meet with them this coming week to discuss pool status and needs for upcoming summer. I plan to discuss last year with Lois McGovern.

I am starting to think about and plan a Shearwater pool party at convenient weekend date in mid- to late June. We have not had such a pool party in a number of years and thought the community would enjoy one. I recall several delightful parties which were held in the past Lois McGovern was part of the planning for these earlier parties and I hope she will be part of the one coming up.

The only concern about the pool which has surfaced from my neighbors is over the present condition of the wooden deck. Some fear that a child (or adult) might injure themselves on the splintered wood. Perhaps the board should consider a remedy for this before the pool opens in late May.
