

## Pool Committee Report for May 2019

The pool was opened on our traditional holiday weekend of Memorial Day, this year being guarded over by Yana. If you are reading this report as an interested neighbor please take a moment to stop by and introduce yourself to her, versus waiting until your first visit. Her job is a very lonely one so we would like in the least to make her feel welcomed by as many of us as we can and even if you are not a regular pool user.

The operating hours for the pool have changed for this season. We are back to having the pool open seven days a week; however, the schedule is not a boilerplate one as in the past. This year the hours flex to accommodate the month and the pre-sunset hours it delivers. Currently the schedule posted at your building covers the schedule through June. The next schedule will cover July, August and the remaining few days in September, and it will be posted towards the end of June. If you are planning an event at the pool make sure you check the schedule to be certain the regular hours will accommodate your plans.

With the advent of new funding at the end of June the new underwater lighting will be installed in the pool. The committee is meeting on Saturday June 1<sup>st</sup> to settle plans for special events at the pool over the summer season. As these events are finalized announcements will be posted on your building bulletin boards for you to plan on later this summer.
