

Shearwater Pool Committee Report
Oct./Nov. 2015

Fall is definitely in the air and the pool has been closed for 2015 season for a little over a month now. That is hard to believe!

But the good news is, we are well on our way to getting our Pool building a much needed facelift! Contract bids are in and being reviewed - we hope to have the final proposals fine-tuned and ready to present to the Board for selection in the next few days! We certainly look forward to presenting to our residents new bathroom countertops and fixtures that are not falling apart, fresh paint on walls, floors and ceilings, non-leaking showers, and maybe a few surprises!

Many of the highlighted items were listed as necessary on our Anne Arundel County Health Department inspection this past year. So our goal for the Shearwater Pool is to have an updated, functional, attractive Bathhouse that will pass inspection with flying colors! We hope to give a positive progress report at the next Board meeting!

Sincerely, Tina Ligon,
Shearwater Pool Committee Chair
