

Shearwater Pool Report

November 2016

* Pool Building is now winterized and closed for the winter. It remained open until the first week of Nov. this year to keep the bathrooms and showers available to contractors, maintenance crews, and boat guests at the Shearwater Marina. This also benefited the residents with boats on the floating dinghy dock below the pool, as their main water source for boat cleaning comes from the water at the pool building.

* Last two repair items for 2016 are complete - 1.) the refinishing of the old entry door frame, and 2.) the reinforcement of the support beams under the pool deck overhang.

* 2017 Season will be May 27 - September 10.

* New resident will assist with the Pool Committee next year - Susan Urbanc in unit 11A1.
Thank you, Susan!

* Thanks to all who supported and used the Pool facility this year, and to all who attended our social events! See you next year!

Tina Ligon, Pool Committee
